AGRICULTURAL SAFETY

National Children's Center for Rural and Agricultural Health and Safety

Farms and ranches are wonderful places for children and youth to live, work and play. However, agriculture is also one of the most dangerous occupations in the U.S., and the only worksite where children of any age can be present. This brochure can help adults find the balance between maximizing benefits and minimizing risks.

WHO WE ARE:

The National Children's Center is one of 11 Agricultural Safety Centers funded by the National Institute for Occupational Safety and Health (NIOSH). Established in 1997, it is located in the National Farm Medicine Center, part of the Marshfield Clinic Research Institute in Marshfield, Wisconsin. The center is the leader in setting voluntary guidelines to protect children who live, visit and work on farms.

Top 5 Injury Statistics:

A child dies in an agriculturerelated incident about every 3 days

Agriculture is one of the most dangerous occupations in our nation, and the only worksite in the U.S. where children of any age can be present.

Every day, about 33 children are injured in an agriculture-related incident

The number of ag-related youth worker fatalities is higher than all other industries combined.

Many agricultural work-related injuries and deaths are associated with children doing work that does not match their developmental level

60% of child ag-related injuries happen to children who are not working

Economic IMPACT **\$1.26 BILLION**

Non-fatal youth agricultural injuries cost society an estimated \$1.26 billion per year, and can wipe out an individual family farm's annual profits in just days, depending on severity.
